12. Summer Rain		3:50
13. Lueged vo Bärge und Tal	3:24	

David Richards and Eliana Burki spent several months recording the album pushing the alphorn to its limits and beyond. The combination of the traditional Swiss instrument with Funk, Rock, Blues and Pop works perfectly. The alphorn counts as one of the most difficult instruments. The tonality is basically determined by the length of the instrument itself which varies between 3.20 and 3.90 meters. Eliana has been playing the alphorn since the age of six. She wins praise and is cheered by the audience on every occasion: whether as guest musician or with her own band. Eliana and her alphorn, a unique and unforgettable pair - a highlight at numerous national and international events.
